E. Supplemental wagers may be offered at the discretion of HCT:

1. Surrender - After the first two (2) cards are dealt to the player and the player's point total is determined, the player may elect to discontinue play on his/her hand for that round by surrendering one-half his/her wager. Should the first card dealt to the dealer be other than an ace or 10-value card, the dealer will immediately collect one-half of the wager and return one-half to the player.

G. Shuffling, cutting, and burning of cards:

1. Immediately prior to commencement of play, before any round of play as determined by HCT, and after each shoe of cards is dealt, the dealer will shuffle the cards:
 - a. A shuffle procedure will be utilized so that a random intermix of cards is administered through any combination of washing, stripping and/or riffing so as to provide a thorough mix.
 - b. HCT reserves the right to change or alter its shuffle procedure to acquire such a mix at any time.
2. After the cards have been shuffled, the dealer will offer the stack of cards with backs facing away from him/her to the players to be cut. The player designated will cut the cards by placing the cutting card in the stack at least fifty-two (52) cards in from either end.

Once the cutting card has been inserted by the player, the dealer will take all cards in front of the cutting card and place them to the back of the stack after which the dealer will insert the second cutting card. The stack of cards will then be inserted in the dealing shoe for commencement of play.
 - a. If the player designated refuses to cut the cards, the cards will be offered to each player moving clockwise around the table until a player accepts the cut. If no player accepts the cut, the dealer will cut the cards.

4. After each full set of cards is placed in the shoe, HCT reserves the right to employ a burn card procedure whereby the dealer will remove the first card face down and place it in the discard rack.
5. Replacement dealers for a live game are required to burn the first card prior to dealing on the game; however, replacement dealers on a dead game, i.e. a game that has been opened but does not have any ongoing play, is not required to burn a card.

H. Procedures for dealing of cards:

1. At the commencement of each round of play, starting on his/her left and continuing around the table, the dealer will deal the cards in the following order:
 - a. One card face up or face down to each box on the layout in which a wager is contained.
 - b. One card face up or down to himself/herself (i.e. the dealer).
 - c. A second card face up or face down to each box in which a wager is contained.
 - d. A second card face down to himself/herself. The dealer may "peek" at all aces and ten-value cards
 - i. After the dealer has dealt two (2) cards to each player and himself/herself and the dealer's face up card is a ten-value card, the dealer may immediately "peek" at the hole card. If the dealer peeks and determines hole card is an ace, the dealer will announce "Blackjack", collect all losing bets and conclude the round of play.
 - ii. After the dealer has dealt two (2) cards to each player and himself/herself and the dealer's face up card is an ace, each player will have the option to make an insurance wager. After all insurance wagers are placed, the dealer may "peek" at the hole card. If the dealer peeks and determines hole card is a ten-value card, the dealer will announce "Blackjack;" collect all losing bets, pay all winning insurance bets in normal order around the table, and conclude the round of play.
 - iii. After the dealer has dealt two (2) cards to each player and himself/herself and the dealer's face up card is an ace and the player has a blackjack, a player may elect to take even money instead of Insurance. If exercised, the dealer will pay the player even money and remove the player's cards from the layout and place them in the discard rack before acting on any other player's hands or "peeking" to determine the hole card.

2. After two (2) cards have been dealt to each player and the appropriate number to the dealer except where otherwise noted, the player will indicate whether he wishes to Double Down, Split Pairs, Stand, Draw or Surrender, if permitted by HCT.
 3. As each player indicates his/her decision, the dealer will deal face up or face down any additional cards requested.
 4. After the decisions of each player have been implemented and all additional cards have been dealt, the dealer will turn over his/her hole card. Any additional cards required to be dealt to the dealer will be dealt face up at this time.
 5. At the conclusion of a round of play, all cards still remaining on the layout will be picked up by the dealer. The dealer will pick up the cards beginning with those of the dealer, sliding their cards underneath the cards of the player to his/her far right and move counter-clockwise around the table. This will allow the dealer’s hand to be on top of the stack in the discard rack. The dealer will place the cards face down in the discard rack.
 6. Whenever the cutting card is reached in the deal of the cards, the dealer will continue dealing the cards until that round of play is completed after which he will re-shuffle the cards. The cards will be re-shuffled when the cutting card is drawn as the first card of a new round.
 7. Each player at the table will be responsible for correctly computing the point count of his/her hand and no player may rely on the point count announced by the dealer, if any.
- I. Drawing additional cards:
1. Except as otherwise provided, a dealer will draw additional cards until he/she has a total of 17 or greater; at which point, no additional cards will be drawn.
 - a. All HCT blackjack tables will either stand on a soft 17 or draw on a soft 17. This decision will be clearly posted at each table.
 2. A player may elect to draw additional cards whenever his/her point count total is less than 21 except that:
 - a. A player having blackjack or a hard or soft total of 21 will not draw additional cards.

 - ii. After the dealer has dealt two (2) cards to each player and himself/herself and the dealer's face up card is an ace, each player will have the option to make an insurance wager. After all insurance wagers are placed, the dealer may "peek" at the hole card. - iii. After the dealer has dealt two (2) cards to each player and himself/herself and the dealer's face up card is an ace and the player has a blackjack, a player may elect to take even money instead of Insurance. If exercised, the dealer will pay the player even money and remove the player's cards from the layout and place them in the discard rack before acting on any other player's hands or "peeking" to determine the hole card.
2. After two (2) cards have been dealt to each player and the appropriate number to the dealer except where otherwise noted, the player will indicate whether he wishes to Double Down, Split Pairs, Stand, or Draw if permitted by HCT.
3. As each player indicates his/her decision, the dealer will deal face up or face down any additional cards requested.
4. After the decisions of each player have been implemented and all additional cards have been dealt, the dealer will turn over his/her hole card. Any additional cards required to be dealt to the dealer will be dealt face up at this time.
5. At the conclusion of a round of play, all cards still remaining on the layout will be picked up by the dealer. The dealer will pick up the cards beginning with those of the dealer, sliding their cards underneath the cards of the player to his/her far right and move counter-clockwise around the table. This will allow the dealer's hand to be on top of the stack in the discard rack. The dealer will place the cards face down in the discard rack.
6. Whenever the cutting card is reached in the deal of the cards, the dealer will continue dealing the cards until that round of play is completed after which he will re-shuffle the cards. The cards will be re-shuffled when the cutting card is drawn as the first card of a new round.
7. On Double Deck Blackjack games, there will be no mid-shoe entry by a player. Once the first hand of a new shoe is dealt, no new players may play a hand until the shoe is completed, the decks are shuffled and cut, and a new shoe begins. If a player refrains from placing a bet for one hand, the player will not be allowed to place a bet until the commencement of a new shoe.
8. Each player at the table will be responsible for correctly computing the point count of his/her hand and no player may rely on the point count announced by the dealer, if any.

If the dealer's second card does not give him/her blackjack, the player having blackjack will be paid. If the dealer does have blackjack, the wager of the player having blackjack will be considered a push and considered a tie bet.

E. Supplemental wagers may be offered at the discretion of HCT:

1. Surrender - After the first two (2) cards are dealt to the player and the player's point total is determined, the player may elect to discontinue play on his/her hand for that round by surrendering one-half his/her wager. All decisions to surrender will be made after it has been determined that the dealer does not have blackjack by peeking at the hole card and prior to the player indicating whether he wishes to Double Down, Split Pairs, Stand, or Draw. Should the first card dealt to the dealer be other than an ace or 10-value card, the dealer will immediately collect one-half of the wager and return one-half to the player.
2. Insurance - Whenever the first card dealt to the dealer is an ace, each player will have the right to make an insurance wager which will win if the dealer's second card is a ten-value card and lose if the second card is an Ace, "2", "3", "4", "5", "6", "7", "8" or "9."

 - c. All winning insurance wagers will be paid at odds of 2 to 1 and all losing insurance wagers will be collected by the dealer immediately after "peeking" at the hole card, if applicable.
3. Double Down - Except for blackjack or a point count of 21 in two cards, a player may elect to Double Down on the first two (2) cards dealt to him/her or the first two (2) cards of any Split Pair. The stack of cards will then be inserted in the dealing shoe for commencement of play.
 - a. If the player designated refuses to cut the cards, the cards will be offered to each player moving clockwise around the table until a player accepts the cut. If no player accepts the cut, the dealer will cut the cards.

4. “Fire Bet” - Players are paid odds based on how many "individual points" a shooter can successfully make before he or she sevens-out. The term "individual points" refers to when the shooter successfully makes a point from the pool of points (4, 5, 6, 8, 9 or 10) that has not been previously made. Successfully making the same point more than once will only count as one "individual point" towards a payoff threshold. "Individual Points" DO NOT have to be made in any specific order. Only a seven out results in the bet losing. When there is a voluntary or involuntary surrender of the dice by a shooter prior to throwing a 7 (seven out), fire bets will remain in place and active until a seven out by the successor shooter occurs.

E. Placing and Removing Wagers:

1. Wagers will be made before the dice are thrown, but they may be made between the time the dice leave the shooter's hand and the time the dice come to rest, provided that they are confirmed orally by the dealer or table game supervisor/dual-rate assistant shift manager or above.
2. A wager made on any bet may be removed/reduced at any time prior to the roll of the dice that decides the outcome of such wager except that a Pass Bet and a Come Bet will not be removed or reduced after a Come Out Point or Come Point is established with respect to such bet.
4. A Don't Come and a Don't Pass Bet may be removed/reduced at any time, but may not be replaced or increased after such removal or reduction.
5. All Buy, Place, Come Odds and Hard Way bets will be inactive on any Come Out Roll unless called "On" by the player and confirmed by the dealer through placement of an "On" marker button on the top of each player's wager. All other wagers will be considered "On."

Section Seven -
Roulette

- A. The purpose of this Appendix is to detail the general rules that govern Roulette.
- B. Physical Characteristics:
1. Roulette will be played on a table having a roulette wheel capable of spinning on its back at one end and a roulette layout imprinted on the opposite end of the table.
 - a. Single 0 Wheel - There are 37 numbers in total on the single 0 roulette wheel (1 to 36 plus the single 0). Half are red, half are black, plus a single 0 which is green. The numbers on the wheel are not in consecutive order as they are on the layout. They are placed randomly with red and black numbers alternating except when broken up by the single 0.
 - b. Double 00 Wheel - There are 38 numbers on the double 00 roulette wheel (1 to 36 plus the single 0 and double 00). Half are red, half are black, plus a 0 and 00 which are green. The numbers on the wheel are not in consecutive order as they are on the layout. They are placed opposite the corresponding high and low number with red and black numbers alternating except when broken up by the single 0 and double 00.
- C. Cards and dice are not used for this game. Instead, a non-metallic ball of varying sizes is used per spin to determine the outcome.
- D. Object of Game, method of play, and wagers:
1. The object of roulette is to pick the winning number that will appear on the roulette wheel as a result of the ball landing in a pocket with a corresponding number at the conclusion of each spin of the wheel and the ball respectively.
 2. The game starts with a patron placing a bet of the patron’s choice on the layout. The dealer will spin the ball in the opposite direction of the wheel. The spin will involve a minimum of four revolutions around the inside of the wheel. Before the ball drops, the dealer will announce “no more bets” and will refuse any bets thereafter. When the ball stops, the dealer will announce and mark the winning number (the number on which the ball landed) and proceed to clear off losing bets and pay winning bets.

- a. Currency or value gaming chips will be spread in front of the dealer's work area;

 - c. The amount of non-value chips will be assembled in front of the dealer;
 - d. The dealer will then push the non-value chips, and/or any value chips to the player;

If another patron at the table hits a hand associated with an envy payout, all patrons who made the progressive side bet win the envy payout. The patron playing the actual hand wins the normal payout only but does not receive the envy payout. (You cannot win an envy bonus from your own hand or the dealer’s hand).

Section Sixteen -
Mini/Midi Baccarat

- A. The purpose of this Appendix is to detail the general rules that govern Mini/Midi Baccarat.
- B. Number of decks of cards and value of each card:
1. This game is played with no more than eight (8) decks of cards with the backs of cards being the same color and design and two (2) additional cutting cards. Hollywood Casino Toledo (HCT) reserves the option at any time to select and designate the number of decks and cutting cards utilized on the gaming tables.
 2. The cards contained in each deck will be as follows:
 - a. Four suits consisting of clubs, diamonds, hearts, and spades with each suit containing 13 cards for a total of 52 cards; and
 - b. The ranks of each card per suit range from 2 to 10 plus one of each of the following: Jack, Queen, King, and Ace.
 - c. The values of each card are as follows:
 - i. Any card from 2 to 9 will have its face value;
 - ii. Any ten, jack, queen, or king will have a value of zero; and
 - iii. Any ace will have a value of one.
- C. Object of Game, method of play, and wagers:
1. The object of Mini/Midi Baccarat is to predict whether the banker’s hand or the player’s hand will get a point value closest to 9, keeping in mind that all ten-value cards count as zero and aces count as one. The hand with the highest point value wins.
 2. The patron may bet on the banker, player, tie, or any combination thereof. If the patron chooses to bet on the banker, the casino will collect a 5% commission on the winnings. A winning wager on either the banker or players hand pays 1 to 1. A tie wager pays 8 to 1.

3. All cards are dealt by the Dealer. At no time shall the patron be allowed to touch the cards. The game starts with four cards being dealt, which create two hands: the Banker's hand and the player's hand. These cards are dealt alternately from the shoe. The first card is dealt face down and placed in the player box. The second card is dealt face down and placed in the banker box. The third card is dealt face down and placed in the player's box. The fourth card is pulled out of the dealing shoe and placed in the banker box face down with the second card. The Dealer will first reveal the player hand, and secondly reveal the banker hand. The cards are dealt according to fixed rules which dictate when a third card can be dealt to the banker's or player's hand. No more than one additional card will be drawn to each hand.
4. The "point count" of a hand shall be a single digit number from 0 to 9 inclusive and shall be determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit number, the left digit of such number shall be discarded having no value and the right digit shall constitute the point count of the hand. Examples of this rule are as follows:
 - a. A hand composed of an ace, a 2 and a 4 has a point count of 7; and
 - b. A hand composed of an ace, a 2 and a 9 has a total of 12, but only a point count of 2 since the digit 1 in the number 12 is discarded.
5. Natural - First two cards dealt to either player or banker total eight (8) or nine (9). Neither side may draw any more cards.
6. In the absence of a banker natural: player will draw a card when his first two cards total five (5) or less. Player will stand when his first two cards total six (6) or more.
7. In the absence of a player natural: banker will draw a card when his first two cards total two (2) or less. When player stands on his first two cards, banker will draw on five (5) or less and stand on six (6) or more.
8. “Third Card Rule”
 - a. If the point count of either the "player's hand" or the "banker's hand" after the initial two cards are dealt to each is an 8 or 9 (which shall be called a "natural") no more cards shall be dealt to either hand.

- b. If the point count of the "banker's hand" on the first two cards is 0 to 7 inclusive, the "player's hand" shall draw (that is, take a third card) or stand (that is, not take a third card) in accordance with the requirements of Table 1 below.

TABLE 1

0 to 5	Draws

- c. The "banker's hand" shall draw (that is, take a third card) or stand (that is, not take a third card) in accordance with the requirements of Table 2 below. When the player does not have a natural, the banker will always draw on totals of 0, 1, or 2.

	Banker Must Stand	Banker Must Draw

5	1,2,3,0,9,8	7,6,5,4
6	5,4,3,2,1,0,9,8	7,6
7	Banker Must Stand	

- d. Tie Bets:
- i. Each patron has the option of betting that the banker and the player hand will tie. If the hands do tie and a patron has placed a bet in the "tie" section of the gaming table (which has the same number as the patron's area), that patron is paid 8 to 1. Tie bets win or lose on the hand being played. A wager placed on the player's hand or the banker's hand shall be a "push" if the point counts of the player's hand and the banker's hand are equal.
